■IMAGE VIEW AREA & MOUNTING HEIGHT

●WIDE

●ZOOM

1,200mm (approx.)

550mm (approx.)

900mm (3') (approx.)
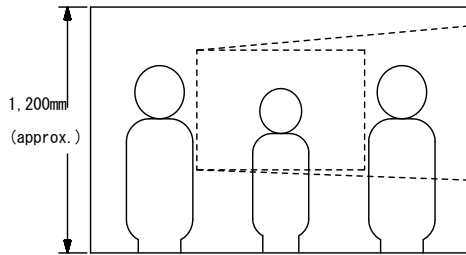

- Objects appear smaller due to greater distortion in the surrounding sections compared to the central section, but a wider area is displayed.
- Image view area depends on the camera zoom position.

■RESTRICTIONS

- When use in Main section, the ID1 of Entrance station cannot be used.
- For power supply, use Aiphone power supply model or model specified for use with system.
- Run audio, video and power wire in each separate cable.
- Install vertically.
- Survaillance camera connection is only NTSC signal.
- Avoid to installations in the following locations;

SKY NO
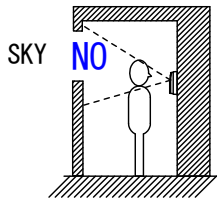

Locations where sky is the background(upper floors of Condominiums, etc.)
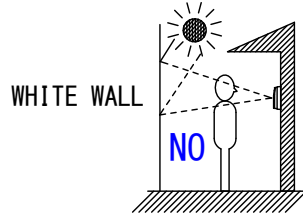

WHITE WALL
NO

The background of the visitor is a white wall.

NO
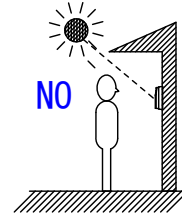

Where the location is strongly sunlit.

- Wires should be separate from each others.
  (Entangling of wires may cause degradation of image quality.)

■RESTRICTIONS ON WIRING

- For wiring, it is recommended to use a single PVC jacketed cable with PE(polyethylene) insulation.
 The following cables cannot be used;
  - Individual conductors
  - Coaxial cable
  - Twisted pair cable
 - Cable with conductors in odd number

PARALLEL CABLE   COAXIAL CABLE   ODD NO. OF CONDUCTORS

- Keep the intercom wires more than 30cm away from AC power lines, as they may cause noise or other malfunctions. When using an existing cable run, the system may not work properly due to the type of the existing cables. In that case, it will be necessary to install new cables.
- Unused connector lead wire should be cut and insulated.

■FUNCTIONS

- Calling/communicating with video image with Residential/tenant station or Guard station.
- Audio and pictograph guidance available.
- Activating door release from a Residential/tenant station or Guard station.
- Setting or releasing linkage with a Residential/tenant stations and Guard stations.
- Setting data transfer available to Guard stations and the other Entrance stations.
- Name search
- Monitor-sensor-activated auto ON function for display.
- Call operation screen, Greeting message Picture or Quick list is available to the standby screen.

■SPECIFICATIONS

Power source	DC 24V. Supplied from a power supply unit (PS-2420 etc.)
Type of communication	Open voice communication (Voice-actuated)
Ambient temperature	-10～+60℃
Monitor	3.5 inch TFT color LCD
Pixels	230,000 pixels (approx.), QVGA (320×240)
Mounting	Flush wall-mount
Material	Panel: Stainless steel Case: Self-extinguishing ABS resin
Unit color	Panel: Stainless steel with hairline finishing Case: Black
Weight	1,200g
Electrical box	GF-3B (not included)
IP rating	IP54
IK rating	IK07
Remarks	NFC receiver is equipped (Card type A, F)
